PROFESSIONAL SUMMARY

Investment Analyst focused on global technology and platform companies across Asia and the U.S., with a strong foundation in financial modeling, valuation, and fundamental equity research. Generated multiple investment ideas producing returns and regularly engage with management teams and investors to develop differentiated insights. Author of Net Positive, an investment newsletter on Substack publishing insightful research on industries such as autonomous vehicles and nuclear energy. Experienced in integrating AI and automation into investment workflows to accelerate research productivity and expand coverage. Ex-President of NTU's Global Research and Consulting Group.

PROFESSIONAL EXPERIENCE

Investment Analyst, River Valley Asset Management (RVAM), Singapore **Jul 2024 – Present**

- **Equity Research:** Covering 10+ Asian (Southeast Asia/China) and US equities spanning industries such as platform companies, cloud services, robotics, consumer, and commodities. Coverage universe includes stocks like Alibaba, Tencent, Uber, Grab, SEA, and others.
- **Investment Performance:** Originated research on 6 portfolio holdings, each appreciating 20-40%, directly contributing to fund performance.
- **Financial Modeling:** Built financial models and valuation frameworks including DCF to evaluate investment opportunities, forecast revenue growth, and actively monitor the risk-reward profile of portfolio holdings.
- **Client Relations & Communications:** Presented investment ideas on directly to UHNI family office clients of the firm on multiple occasions.
- **Report Writing:** Authored and published 4 client-facing research reports featured in RVAM's quarterly newsletter, strengthening the firm's external communications and client engagement.
- **Due Diligence:** Conducted management and investor relations meetings with portfolio companies to extract differentiated insights, validate investment assumptions, and assess qualitative factors critical to the investment decision-making process.
- **AI Research Workflows:** Led adoption of AI-assisted insight generation, report writing, and financial modeling for our portfolio companies. Resulted in reduced deep-dive report turnaround time from 3 weeks to 1 week and an expansion of the coverage universe without additional headcount. Helped colleagues with AI adoption as well.

Founder & Author, Net Positive – Investment Newsletter (read on Substack) **Mar 2025 – Present**

- **Investment Writing & Research:** Author periodic original research essays on Substack covering investment ideas, business drivers, and structural industry shifts across global markets. Do give it a read.

AI & TECHNOLOGY FLUENCY

AI Agent for Quarterly Earnings Tracking (view project) **Feb 2025**

- **AI-enabled tech stack:** Developed an AI agent using Python and the Claude API that fully automates the creation of quarterly earnings update notes and prepares team emails with transcripts and relevant broker research attached. Reduced processing time from approximately 45 minutes to under 1 minute per company, saving an estimated 80+ hours annually across the my entire coverage universe.

Claude 101 Certification – Anthropic (verify credential) **Mar 2025**

- **AI Proficiency:** Completed Anthropic's official certification covering AI fundamentals, advanced prompt engineering techniques, and the practical application of large language models in professional research and business workflows.

EDUCATION

Nanyang Technological University, Singapore **Aug 2020 – May 2024**

Bachelor of Social Science in Economics with Minor in Philosophy | Honours (Distinction)

- **Relevant Coursework:** Banking & Finance, Monetary & Fiscal Policy, Asset Pricing, Econometrics & Statistics, Macro & Micro Economics.
- **Awards:** Ministry of Education Tuition Grant Awardee (full duration of studies).
- **Exchange Semester** at Ludwig Maximilian University of Munich, Germany.
- **President** of Global Research & Consulting Group (GRC), leading 30 student consultants across 6 pro-bono projects.
- **Vice-President** of NTU Management Consulting Club (MCC), helping 25 students improve their consulting skills and employability.
